JVS High school | Chikkamagalur

2017 - 2018,

Percentage : 84%

## WORK EXPERIENCE

### Web Development Intern Campalin Innovations

04/2023 - 05/2023,

Achievements/Tasks

- As a Web Development Intern at Campalin Innovations, I acquired a strong skill set and a deep understanding of various web technologies, preparing me for a successful career in the ever-evolving world of web development. I am excited to leverage this experience and continue my journey in creating innovative and impactful web solutions.

### Intern

### Capulus Technologies

05/2022 - 05/2023,

Achievements/Tasks

- Overall, my internship experience at Capulus Technologies exposed me to the exciting world of computer vision and AI, providing hands-on experience with a powerful annotation tool like CVAT. I am proud to have contributed to projects with real-world applications and look forward to leveraging this valuable experience as I pursue a career in the field of computer vision and machine learning.

## SKILLS

Web Development

C Programming

JAVA

Python

Database Management System

## PERSONAL PROJECTS

### Death Date Finder in C Programming

- The "Death Date Finder" project aims to empower individuals with knowledge about the potential consequences of their lifestyle choices. By raising awareness of the impact of BMI and smoking habits on life expectancy, the application encourages users to make healthier decisions and adopt positive changes in their daily routines.

### IoT Based ATM Security System using RFID & SMS Control

- In this project, I spearheaded the design and implementation of an innovative IoT-based ATM Security System that leverages RFID technology and SMS control to enhance the overall security measures in automated teller machines (ATMs). The project aimed to address the growing concerns surrounding unauthorized access and fraudulent activities associated with ATMs

### Simple Chat Bot

- The "Simple Chat Bot" is an intelligent web-based chatbot application developed in PHP, utilizing the XAMPP stack for seamless integration and deployment. The primary objective of this project is to provide users with a conversational experience, where they can interact with the chatbot to receive information, answer queries, and perform simple tasks.

## CERTIFICATES
